For More details please Contact Us ambulance Services, offering 24 hours of medical transport facilities. Our ambulance services in the whole country at an affordable cost with very affection and car. We as a team is experienced in providing emergency treatments with the shortest span of time. We have a great experience, potential, and abilities to transmit. The patients from the home to the hospitals with great care and affection.

When you dial 999, the first person you speak to is the Operator who will ask you which service you need. If you ask for an ambulance, you will be put through to your local ambulance service. An emergency call handler will then take the call and will ask you questions so that help can be arranged.

## OUR AMBULANCE SERVICE

### Ac Ambulance

Ambulance BD provides AC Ambulance service. So patients can go anywhere safely at any time. We are 24 hours ready to give services to the patients. Our AC Ambulance service is the best fastest service in the country. We always ready to provide any ambulance service from dhaka to all districts in Bangladesh. the facilities of Ac ambulance in here: Dowl Ac support for patient Oxygen is totally free for emergency patients Stretcher available for more ill patients. A reliable bed is available for patients Will be seat 7/8 people beside of patients 24/7 hours service available. 24 hours Ac ambulance service provider company in Dhaka, Mogbazar, Malibag, Basabo, Badda, Danmondi, Mirpur, Sahabag, and Sydabad. We provide also all districts of Bangladesh. 24/7 service available. When you an ambulance just then call in our helpline.

### Non Ac Ambulance

The Non-Ac Ambulance Service Providers in Dhaka, Bangladesh. We provide 24-hour emergency ambulance services in cities and district level cities. We also provide Ac ambulance service which arranges an ambulance in the city. It is a vehicle without an air conditioning system. Non-Ac ambulance service is the lowest at price. When people face an emergency moment then, they are felling tension about the cost of the service. I required them Non-Ac ambulances will be the first choice for them. Non-Ac ambulances have almost the same facilities as Ac ambulances. You can customize to your needs. Don't worry about charges. All of these benefits are free. You don't have to pay for it. The Non-Ac ambulance service use from us in Dhaka city. It is a perfect service for people with limited income. 24 hours private ambulance service available in Dhaka. 24 hours Non-Ac ambulance service provider company in Dhaka, Mogbazar, Malibag, Basabo, Badda, Danmondi, Mirpur, Sahabag, and Sydabad. We provide also all districts of Bangladesh. 24/7 service available. When you an ambulance just then call in our helpline.

## Freezing ambulance

A freezer ambulance is a dead body carrier ambulance. It has a frozen box. The freezer ambulance can keep the corpse intact for several hours and days. People who want to keep their relatives' corpses intact or free from germs or viruses for several hours or several days can hire our fridge ambulance. Sometimes you need this ambulance service if the bodies come from abroad or you have to stay for more than 12 hours before burying them. The fridge ambulance has a freezer box and the body shape features that the coffin can carry. The ventilation system is good to keep the air inside the ambulance refreshed. Always alert for trained drivers and assistant services. Necessary fuel is stored so that ambulance engines never stop because there is a shortage of diesel pumps in rural areas.

## ICU & CCU Ambulance

The ICU ambulance service is an Emergency service that carries seriously injured patients to the hospital. We can see an ambulance in the street with an emergency warning light and siren (L&S). they are always ready to observe their duty to take care of a serious patient and to take him/her to any nearby hospital. You can find ICU ambulance service anywhere in the country you are living in but specifically, in Bangladesh, you have to find a good ICU ambulance that can keep its job perfectly. This is why we are here; we have gathered a bunch of information that includes the availability of different ICU ambulance services in the different locality in our country. Life support ambulance services are those which have the emergency kit to support the patient who is in the condition to go. Like patients who, Needs continuous IV medicine patient on a cardiac monitor patients who need to take a high level of care until taking to the hospital patients on a chronic ventilator the patient does not seem to be breathing the condition of the patient seems to be extremely unsafe condition
